Clubs, Bar and Nightclub Benefits

Deploy Text Marketing for your Club, Bar or Nightclub

- Text marketing has hit the nightclub industry by storm and the results have certainly been impressive. Nightclub clients are reporting huge increased attendance using text marketing solutions.
- Many UK nightclubs are aware of the potential of sms marketing as a way of increasing business but are unsure of how to go about it.
- As well as being able to upload existing mobile numbers into the system, we can set up and run an automated 'Text Club' that new members can join by simply texting in a keyword to receive your offers.
- Club Manager, Richard Sedley commented:
“Our new text club grew by 250 new members a night. Text is now the most important and responsive part of our marketing activity.”

Think for a minute.....

- 97% of text messages sent are read
- 91% of people Never have thier mobile more than three feet away from them 24/7
- Cheaper than mail or phone calls
- 100% Optin Service and we completely manage this for you, leaving you more time and less hassle.
- Target your offer to customers at a chosen date and specific time.
- What better way to get noticed than to target a text to customers at 4pm just when they are wondering what to do that evening?
